PROFESSIONAL SUMMARY

Product, strategy, and operations-focused NYU graduate student with 2 years of experience driving AI-powered products, operational analytics, and cross-functional execution across technology and industrial environments. Skilled in product strategy, Agile execution, KPI tracking, process optimization, and data-driven decision-making.

TOOLS: SQL, Excel, Tableau, Power BI, JIRA, Confluence, Product Analytics, KPI Tracking, Data Visualization, Python

PROFESSIONAL EXPERIENCE

Associate Product Manager, Lalitech

Pune, India | Jan 2024 – Aug 2025

- Directed delivery of AI-powered products across communication and collaboration platforms, enhancing automation and user productivity.
- Owned roadmap planning, feature prioritization, sprint execution, and cross-functional coordination to deliver scalable product enhancements aligned with business and user needs.
- Worked closely with engineering, design, and business stakeholders to define requirements, streamline execution workflows, and improve release delivery timelines.
- Conducted user research, customer feedback analysis, and market research to identify product opportunities, improve usability, and optimize feature adoption.
- Defined and tracked product KPIs, customer engagement metrics, and operational performance indicators to support data-driven product decisions and roadmap planning.
- Led Agile ceremonies including sprint planning, backlog grooming, release tracking, and stakeholder reporting using JIRA and Confluence.
- Designed AI-enabled operational workflows and internal process automation systems, reducing manual effort by 30% and improving execution efficiency across teams.
- Supported go-to-market strategy through competitor analysis, pricing evaluation, customer segmentation, and AI-driven market sentiment analysis.
- Collaborated with leadership teams on strategic initiatives focused on workflow optimization, scalability, customer retention, and operational improvement.
- Improved cross-functional visibility and execution alignment by implementing structured reporting systems, product documentation standards, and roadmap tracking frameworks.

Assistant Project Manager, JSW Steel

Mumbai, India | Jun 2022 – Oct 2023

- Managed operational analytics and process optimization initiatives focused on improving workflow efficiency, system reliability, and execution performance.
 - Built KPI dashboards and reporting systems using Tableau and Excel to monitor operational metrics, downtime trends, and maintenance performance.
 - Reduced operational downtime by 15% through root-cause analysis, predictive maintenance planning, and continuous improvement initiatives.
 - Collaborated cross-functionally with production, maintenance, and quality teams to streamline operational processes and improve execution efficiency.
 - Led a team of 40+ engineers and technicians while driving process standardization and operational reporting improvements.
-

PROJECTS

Rectify Chat AI — AI Productivity Platform

Lalitech | Jan 2024 – Aug 2025

- Led execution of an AI productivity platform integrating multi-LLM workflows across Slack, WhatsApp, and Microsoft Teams.
- Conducted user testing, feature prioritization, and workflow optimization to improve engagement and usability.
- Collaborated with engineering teams to launch AI automation features including smart replies and conversation summaries.

Study Pulse — Design Thinking & Product Strategy Project

NYU | Spring 2026

- Led design of a context-aware learning platform to improve student engagement and learning consistency.
 - Conducted user research, usability testing, and behavioral analysis to identify learning pain points.
 - Designed adaptive reminder systems and collaborated on feature prioritization and prototype iterations.
-

EDUCATION

New York University — Tandon School of Engineering

M.S. in Management of Technology | GPA: 3.84 / 4.0

Sep 2025 - May 2027

Brooklyn, NY

University of Mumbai — Don Bosco Institute of Technology

B.E. in Mechanical Engineering | GPA: 3.34 / 4.0

Aug 2018 - May 2022

Mumbai, India
